Item: 1

Regarding the ice surface at CPT World Women's Curling Championship 2017

Summary:

Followers of the CPT World Women's Curling Championship 2017, taking place in Beijing, China between 18 and 26 March, will notice, what looks like cracks in the ice. The appearance of cracks is only at the paint level, beneath the ice. There are no cracks on the ice surface that will affect play.

关于康比特2017年北京世界女子冰壶锦标赛冰面情况的公告

康比特2017年北京世界女子冰壶锦标赛将于2017年3月18日至26日在北京举办。

观众可能会注意到冰面似乎出现了裂痕，然而实际情况是冰面下的白色油漆出现了裂痕，而非冰面，这种情况并不会影响比赛的进行。

特此公告。
